Method

To a non-stick, oven-proof pan, add the flour, egg, 3 garlic cloves (crushed), and a tsp of dried oregano. Combine the ingredients well until you have a smooth dough. Once you achieve this texture (you may need to add another bit of flour depending on the yogurt used), spread and flatten the dough to the desired pizza size.

Place the pan in the oven at 180 degrees Celcius / 350 Fahrenheit for 12 to 15 minutes.

As the base is being cooked, cook the pizza sauce. To a pot add 1/2 tin of chopped tomatoes, tsp of basil, tsp of oregano and the remaining garlic cloves. Cook on medium-high heat until the sauce reduces. This should take around the same time as the pizza base.

Once the base is cooked, take the pan out of the oven. Add the sauce to the base, followed by the low fat mozzarella cheese. Top with some fresh basil leaves and then return the pan to the oven for another 5 to 10 minutes.

High Protein

Med Carb

Method

- Begin by toasting your sourdough slices until they're golden and crisp. For that authentic Joe & The Juice texture, press them on a hot grill or panini press.

- While the bread is toasting, prepare your tuna mousse by mixing the drained tuna with mayonnaise, Dijon mustard, salt, black pepper, chopped jalapeños, cilantro, diced red onion, and a good squeeze of lemon juice. Adjust the seasoning to taste.

- Once your bread is toasted to perfection, spread each slice with a layer of green pesto.

- On one slice, layer the avocado and tomato slices. This not only adds flavor but also a barrier that prevents the bread from getting soggy.

- Scoop a hearty amount of the tuna mousse over the avocado and tomato. Spread evenly to cover all the flavors in each bite.

- If you're feeling adventurous, add a few extra jalapeños on top for an additional heat element.

- Carefully place the second slice of bread on top, pesto side down, to cap off your sandwich.
